2016

SKILLS

- Javascript
- React.js
- HTML
- CSS
- Redux
- Node.js
- Express
- Mongo DB
- REST APIs
- Git
- Agile Methodologies

ABOUT ME

Results-driven Frontend Developer with hands-on experience in building responsive web applications using React.js, JavaScript, HTML, and CSS. Completed an 8-month internship at Eduzell Technologies, where I developed dynamic user interfaces, optimized performance, and implemented best practices in UI/UX. Proficient in React.js, Redux, Node.js, Express, MongoDB, and Git, with a strong understanding of REST APIs, responsive design, and Agile methodologies. Passionate about writing clean, efficient code and continuously learning new technologies. Seeking an opportunity to contribute my skills and grow as a web developer.

INTERNSHIP EXPERIENCE

EDUZELL TECHNOLOGIES AND SOLUTIONS L.L.P

Frontend Developer Intern

Dec 2023 – July 2024

Completed an 8-month internship focused on frontend development, where I built and optimized responsive web applications using React.js, JavaScript, HTML, and CSS. Collaborated with a development team to enhance UI/UX design, ensuring cross-browser compatibility and performance optimization. Worked with Redux for state management, integrated REST APIs, and followed Agile methodologies for efficient project execution. Gained hands-on experience with Git for version control and troubleshooting frontend issues to improve user experience.

PROJECTS

Portfolio Website – A personal portfolio website built using React.js and Vite, showcasing skills, projects, and an interactive contact section powered by Web3form. Designed for responsiveness and a modern UI.

ONGOING PROJECT

Job Portal – Building a full-stack job portal using React.js, Node.js, Express, and MongoDB. The platform enables job seekers to create profiles, search and apply for jobs, while employers can post job listings and manage applications. Focused on secure authentication, real-time updates, and user-friendly design.
